

# ACADEMIC HONESTY POLICY

## Engage, Learn, Reflect

- Engage:** EIS provides a safe educational environment where all students, staff and parents engage in a caring and diverse culture of learning.
- Learn:** EIS turns engagement into reflective academic excellence focusing on the needs of the individual learner to prepare for any level of further education.
- Reflect:** EIS learners acquire new knowledge and skills through ongoing reflection and engagement.

## **Guiding Statements**

- At EIS, students and teachers believe that "Teaching and learning promote the understanding and practice of academic honesty (IBO, 2014, p. 4).
- To this end, "the principle of academic honesty should be viewed positively by the entire school community and become a natural part of academic study, remaining with the IB student throughout his or her education and beyond," (IBO, 2014, p.1).
- At EIS, our emphasis on the development of the Approaches to Learning inculcates a personal ethos of integrity and honesty within all members of the community.
- At EIS, our goal is to have IB Learner Profile traits and academic honesty woven together through all aspects of learning.

## **What is Academic Honesty?**

Academic Honesty involves, but is not limited to, a range of behaviours (*principled, caring, open-minded*), skills (*knowledgeable, risk takers*), and the ability of students to make their knowledge, understanding and thinking transparent (*responsible, thinkers, communicators, reflective*). The technical skills of academic honesty are important but just as important are the concepts and values behind those skills. The IB Learner Profile attributes and the Approaches to Learning – taught explicitly throughout – nurture these concepts and values and instil in learners the importance of academically honest behaviour.

## **What is Academic Dishonesty?**

The definition of Academic Honesty provided by the IB in 'Academic Honesty in the IB Educational Context' is written below in italics and is congruent with EIS' definition of Academic Honesty.

*International Baccalaureate (IB) programmes encourage students to inquire and to think critically and creatively; students are then asked to give shape to their thinking through oral discussion or presentations, through visual representations and displays, and in multiple forms of writing. However, we live in an age in which we are all flooded by information and opinions. How can we help students navigate these waters so that they are able to confidently talk or write about what they are learning, making visible and explicit how they have constructed their ideas and what views they have followed or rejected?*

This is essentially what academic honesty is: making knowledge, understanding and thinking transparent.

The IB defines a breach of academic honesty as behaviour that results in, or may result in, the student or any other student gaining an unfair advantage in one or more assessment components.

Academic misconduct may include:

- plagiarism—the representation, intentionally or unwittingly, of the ideas, words or work of another person without proper, clear and explicit acknowledgment;

- collusion—supporting academic misconduct by another student, as in allowing one's work to be copied or submitted for assessment by another;
- duplication of work—the presentation of the same work for different assessment components;
- any other behaviour that gives an unfair advantage to a student or that affects the results of another student (falsifying data, misconduct during an examination, creating spurious reflections).

## Consequences of Academic Misconduct

EIS is comprised of a Primary Division and a Secondary Division. As such, the consequences for a breach of the Academic Honesty Policy will vary from Primary to Secondary. Note that the consequences below refer to instances where a breach of Academic Honesty is concerned, not general behaviour. Consequences for behavioural misconduct is detailed in EIS Behaviour Policy.

### ***Primary Division***

In the Primary Division, teachers ensure that students understand the importance of completing their own work and have "age-appropriate expectations and practice regarding references, citations, quotations and paraphrasing," (IBO, 2014 p. 8). In addition, EIS students (both Primary and Secondary) are bound to their respective Digital Responsible Use Agreements (Appendices C and D). Students in their final year of Primary participate in the PYP Exhibition, a culmination of their learning and the learning process. Students in their final year of Primary are required to sign an agreement stating they understand what "plagiarism" and "collusion" are, and agree to honour the EIS Academic Honesty Policy (Appendix A).

### ***Secondary Division***

Incidences of academic malpractice occurring during the course of the academic year:

**1<sup>st</sup> Offence:** Conference with the subject teacher and the student is required to re-do the work (if possible). The work is graded and student is reminded of the EIS Academic Honesty Policy. The homeroom teacher is notified by the subject teacher and the incident is noted on school records.

**2<sup>nd</sup> Offence:** Conference of the Academic Honesty Team (subject teacher, homeroom teacher, Librarian and MYP coordinator) to strategize intent or student difficulty and create a process to support the student development. A plan is established and shared with the student, work re-done and graded. The second incident is noted in school records and parents informed.

**3<sup>rd</sup> Offence:** Conference with the subject teacher, homeroom teacher and Head of Secondary. The student is given a zero for the work. Parents are invited for a meeting with Head of Secondary, subject teacher and student. Disciplinary consequences as per the Family Handbook. The third incident is noted in school records.

## Responsibilities of Students, Teachers, School, and Parents

Teachers at EIS strive to instill values that support academic honesty in students. However, this responsibility is shared amongst a variety of stakeholders. The table below outlines some of these responsibilities. *In all cases we refer to the document- IBO Academic Integrity, 2019 publication.*
